RESORTS NORTH AND SOUTH CALL THE WINTER VACATION THRONGS

Attractive Playgrounds From Canada to Florida, From Cuba and the Bohamas to Bermuda, Come Alluring Invitations to Rest and Recuperate.

7 HILE New York expended its surplus energy yesterday in open air ice skating, Pinehurst, Alken and Augusta were trying to equal par on the mid-South golf courses in a temperature typical of October, and Florida was lolling about in June like weather.

Of such is the varying life of these United States that prompted Marshal Foch to observe on one of his American tours,

"In this marvelous land one goes to bed under blankets and wakes up to find that the camellias are thinking about blossoming."

And the charm of the versatility of America's climate is its inexpensiveness and its propinquity. With the price of an ordinary summer vacation and a few days to spare, the New Yorker may cast aside goloshes, put on his golf suit and forget the bite of a midwinter northeast blow in his home town.

Lots of people in this city are beginning to think about just such things, especially the men who are beginning to feel wear of office work and the strain of business responsibility.

From Canada comes the message for And the charm of the versatility of

swing."
From each of those attractive mid-south resorts with their hotels that have made the study of human comfort an axact science comes the message: "The golf courses were never in better shape and both the sand and grass greens have been pronounced perfect by the club bros."

mourned."

To forecast the personnels of the various winter resorts, particularly those south of the Mason and Dixon line and those over which fly the British and Cuban flags, it would be necessary to give many more than a thousand names of persons of social consequence not only in the chief American and Canadian cities but also in England. British cousins and nearer relatives in the dominion north of "the lakes" have in recent years figured more and more prominently in the social life of the American and British's American resorts and in Havana.

Judging from the unusually large number of reservations made at the countless fine hotels at the various resorts and preparations that have been and are being made to receive the winter visitors, the remaining days of this month and the days of the first three months of 1922 are to be the gayest ever in Canada, in the mid-South, on the American Riviera in Fiorida, at the British resorts washed by the Gulf Stream and in the half-tropics of Cuba. forecast the personnels of the

Advance Guard of Palm Beach Crowd Arrives

Mr. and Mrs. Lewis Quentin Jones Among Those Already There.

Pacial Dispatch to THE NEW YORK HEMALD.

PALM BEACH, Fla., Dec. 17.—It was not so many years ago that the opening of the Palm Beach scason was incidental to the opening of the Breakers, which has usually opened in season for the Christmas helidays. But with the rapid growth of the Palm Beach cottage colony the season has advanced year by year until this year found many Palm Feach cottagers established for the winter by the end of October or early November. Correspondingly late has the season also become, so that many find themselves still in their houses in early May and April.

May and April.

This year many are planning their arrival in Palm Beach before Christmas or immediately following the holiday, to start the new year in Florida. Mr. and Mrs. Lewis Quentin Jones have been at their house in Palm Beach since late October, and Mr. and Mrs. Frederick A. Glifden of New York and Cleveland also are early arrivals there. Mrs. Edward T. Stotesbury of Philadelphia is now planning to arrive at El Mirasol to spend the Chrishmas holidays there, coming down in her private car with other members of her family. Mr. and Mrs. James H. R. Cromwell now expects to remain in Philadelphia, save for a short stay in Palm Beach later in the season, and it is likely that Mrs. Eaton Cromwell, recently returned from Europe, and Mrs. Cromwell Brooks of Washington, also will be with her at El Mirasol.

To Entertain Friends.

Mr. and Mrs. Joshua S. Cosden of New York have taken Mr. Charles A. Munn's house for the winter. Mr. and Mrs. Cos-den will bring a party of friends to spend Christmas with them, making the spend Christmas with them, making the journey in their private car.
Dr. and Mrs. W. Seward Webb have taken a two years' lease of Miss Amy Phillips's house at Wells road and will arrive on December 28. It is expected that Mrs. Ralph Pulitzer and her children will accompany them.
Mr. and Mrs. Edward Crozer arrived that the taken in the marriage of their

Mr. and Mrs. Edward Crozer arrived shortly inter the marriage of their daughter, Miss Mona Crozier, last week to Mr. Neil Wainwright. Mr. and Mrs. Crozer have taken a house opposite Mr. Roger Hill's cottage on Brazilian avenue. The new Italian villa adjoining the Everglades Club, built last season by Mr. Leonard M. Thomas, has not yet been furnished, and as Mrs. Thomas wishes to spend most of the winter in New York to be near her young son who is at school Mr. and Mrs. Thomas plan but a brief visit in Palm Beach this season.

plan but a brief visit in Paim Beach this season.

Mr. and Mrs. E. Clarence Jones, who spent their honeymoon last season on the French Riviera, are also to be early arrivals this season, where, as vice-president of the Everglades Club, Mr. Jones is active in its many social affairs. His own miniature club and restaurant on Sunset avenue, which he built two years ago in order to insure privacy for his entertainments, will probably be again open this season.

It is understood that Mr. and Mrs. Ogden Reid, who have for the last two seasons, during late spring, occupied Mr. Otto G. Kahn's villa on the Ocean Boulevard, will take the new house which he is now building, adjoining his own villa, and which he hopes to complete for occupancy this season.
